### **Cache Creek adds new high limit slot and table games areas**

**BROOKS, Calif.** – Despite the challenging economy Cache Creek Casino Resort continues to upgrade their gaming offerings to better serve their guests. The resort will open a new high limit table games room on Friday, Dec. 18 featuring three Baccarat tables with a \$10,000 maximum betting limit, two single-deck Blackjack games with 3 to 2 payouts and \$2,000 maximum limits, two double-deck Blackjack games with a maximum limit of \$5,000, and three Blackjack shoe games with \$10,000 maximum betting limits.

Earlier in the month a brand new high limit slot room was opened at the resort, featuring additional slot games and denominations. “We are continuing to make changes to our gaming operations in response to our guest’s needs and feedback,” said Cean Burgeson, a spokesperson for Cache Creek. “The buzz we’re hearing about our new high limit slot room has been great so far and we anticipate the same from the opening of our new high limit table games room. Blackjack games with 3 to 2 payouts are getting harder to find these days so our players who enjoy table games will be excited about these new options. They’ll also like the range of betting limits we continue to provide and the number of tables we have to accommodate everyone.”
